

Attorney Docket No. 40146/21301 (1597)

REMARKS

Claims 9-19, 29-38, and 40 have been canceled, and claims 41-43 have been added. Claims 1, 20, and 39 have been amended. Claims 1-8, 20-28, 39, and 41-43 thus remain pending in the above-referenced application.

With respect to the Section 112 rejection based on indefiniteness, Applicants submit that the amendments made to the claims have obviated this rejection.

The Examiner has rejected claims 1-3, 10-12, 20-22, 29-31, 39 and 40 as being anticipated by Berger et al. (U.S. Patent No. 6,507,734); claim 7, 16, 17, 26, 27, 35 and 36 as being obvious over Berger; claims 4-6, 13-15, 23-25 and 32-34 as being obvious over Berger in view of User's Guide for Nokia Wireless Headset HDW-2; claims 9 and 28 as being obvious over Berger in view of Beamish et al. (U.S. Patent No. 6,473,613) and Bonta (U.S. Published Appln. No. 2005/0136834); and claims 18, 19, 37 and 38 as being obvious over Berger in view of Petersen (U.S. Published Appln. No. 2003/0108009). Applicants have amended claims 1 and 20 to remove the audio signal, so that the configuration data is carried by the video signal. In Berger, this is not the case, since the security code is transmitted in the form of DTMF tones. Moreover, Applicants submit that none of the remaining references used to reject the dependent claims overcomes the deficiencies in Berger. Accordingly, withdrawal of these rejections is requested.

Applicants have added new claims 41-43. No new matter is introduced by them. Applicants submit that they are patentable for at least the same reasons given above.

Attorney Docket No. 40146/21301 (1597)

In view of the amendments and the remarks submitted above, Applicants respectfully submit that the present case is in condition for allowance. All issues raised by the Examiner have been addressed, and a favorable action on the merits is thus earnestly requested.

Respectfully submitted,

Dated: May 14, 2008
